

## Environmental Policy

The NSLV management team is committed to continually improving its environmental performance through the environmental management system. We will strive to take all necessary actions to protect the environment, reduce and prevent pollution, and make sure we are fulfilling our compliance obligations. We will do this all by endorsing the “BUCK” principles.

**B**e environmental stewards in the community in which we live and work.

**U**se the best possible technology and practices to prevent and reduce pollution.

**C**ontinually improve our Environmental Management System through our environmental objectives.

**K**eep striving to explore different ways to enhance our environmental performance.
